SUMMARY

Dedicated Electronics and Communication Engineering student with a strong grasp of circuit design, VLSI, and communication systems. Experienced with simulation tools and programming language Python. Passionate about applying technical knowledge in innovative projects and the semiconductor industry.

EDUCATION

Bachelor of Engineering in Electronics And Communication Engineering	August 2022 - Present
Dhanalakshmi Srinivasan Engineering College, Perambalur	
CGPA: 8.34/10.00	
HSC	July 2021 - May 2022
Government Higher Secondary School. Valaiyapatti, Namakkal	
Percentage: 76%	
SSLC	June 2020 - March 2021
Shinehill academy Martic Higher Secondary school. Valaiyapatti, Namakkal	
Percentage: 71.3%	

SKILLS

Technical Skills

Skills	Arduino IDE, Xilinx,
Language	Python, C, Embedded C
Design Software	TinkerCad, EasyEDA,
Platforms	Wokwi, VS code, cursor

Soft Skills

Organization And prioritization

Initiative

PROJECTS

Smart Glass	June 2025 - July 2025
Major project	
· AerixNova technology Pvt Ltd., Namakkal	
· Smart Glass using ESP32-CAM and AI Built a smart glass that captures images, or get input from voice	
· from fastAPI get the input and extract the image using paddle OCR and analysis in AI	
· convert the result in audio file	
· the audio file is sent to server and play in bone conduction speaker	

AITalkingRobot

June2025-July2025

Major Project

- AerixNova technology Pvt Ltd., Namakkal
- AI Talking Robot with Animated Expressions.
- Developed a voice-interactive AI robot with animated emoji expressions and multilingual speech using OpenAI /Gemini API

INTERNSHIP

AerixNova Technology Pvt .Ltd,Namakkal.

June 2025 - July 2025

Dhanalakshmi Srinivasan engineering College, Perambalur

March 2025

PSG College of Technology.coimbatore

Feb 2023

CERTIFICATIONS

- Data Analysis with Python
- Introduction to Internet of Things and digital transformation
- Introduction to Microsoft Excel
- AWS Academy Cloud Architecting
